TriVita's Cooperative Marketing Model

TriVita is a 10 year old nutraceutical (health and wellness) company based in Scottsdale, Arizona.

TriVita have a unique business model (Cooperative Marketing) in that they get their customers from television & radio advertising run throughout North America. The thing with TriVita is that they get all the customers from their advertising. They handle all the daily detail. They sell them the product, they ship it, they collect the funds, they handle all the follow-up - everything from top to bottom.

All that the TriVita Affiliate Member's need to do is to share the business concept and to receive their monthly commission cheques.

Our team uses the Matrix of 3 in conjunction with TriVita's Cooperative Marketing model to build successful, profitable businesses.

Quality Products for Your Customers IN NORTH AMERICA

YOU CAN WORK WHEN YOU WANT, AND WHERE YOU WANT !!!

International Sign-Ups.

1. What do you need to have as far as Trivita is concerned to sign up?

You only require 2 things - a US Tax ID and a US street address. By doing this, you will be a "U.S. Entity" as far as the company is concerned.

2. How do you get a US Tax ID?

First call the Inland Revenue Service (I.R.S.) on 1-215-516-6999 (with your appropriate international dialling code in front) and you will be given an EIN over the phone.

This process takes about 30 minutes. They will ask you four or five questions which revolve around the nature of the business. Tell them that you are a sole proprietorship, have no employees, involved in marketing, run from your home, and that you need the EIN to comply with I.R.S. regulations. The rest of the questions will be giving them your name, and your address and phone number from your country.

The I.R.S. will also send the Tax ID No. to you in the mail - allow up to 2 months for it to arrive.

3. How do you get a US street address?

If you do a Google search using the reference "US mail forwarding", you will find a number of firms that offer a US street address as well as forwarding your mail to you in whichever country you want it to go to. These companies charge a fee (3 month minimum) to have the account and then postage/ freight on top. This should be tax deductible, either in your own country or the US.

Once you have set up your US address, you will probably need a "PS Form 1583" to allow your mail forwarding service to accept your mail from the United States Postal Service (USPS). This form and your identification needs to be verified by a NOTARY PUBLIC. If you don't have access to a notary, or a notary is too expensive, you may find a local official such as an attorney, government or bank official who can stamp the form. You can usually find a notary in the local US consulate or embassy.

My upline Director has also mentioned that UPS/Mail Boxes Etc. offers an excellent service of providing a mailbox and mail forwarding. Their website is <http://www.mbe.com/ps/ms.html>.

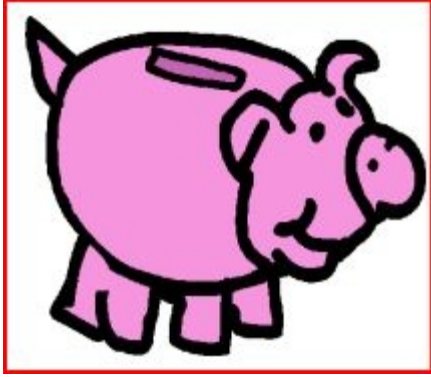

4. Will I have to pay US Tax?

As you will have a US Tax ID, the US govt (IRS) will expect you to lodge a return and pay tax if you owe anything.

Many countries have an exchange tax treaty with the US. This means that for non-Americans who earn income in the USA, the income that they earn will be taxed in the US but you then declare the income and the tax paid on your own tax return in your own country. You should only have to pay extra tax if the US tax rate is less than the tax rate you have to pay in your own country.

Check with your accountant to see if your country has this exchange tax treaty.

5. Do I need to have a US bank account or is there some other way of getting paid by TriVita?

No. You do not need a bank account as the Company will send the cheque in the mail to your US address (who will forward it on to you).

If you ever go to the US, you are able to open an account, and then you can set up Direct Deposit which will speed up your receiving your commission payments.

6. Would I still have to order the \$40 minimum monthly product as TriVita does not ship overseas?

Yes. TriVita will send your [product order](#) to the US street address that you obtained in step 3. Your US mail forwarding firm will be able to forward your order to your own country address. However, some countries (Like Mexico) may have restrictions in importing food, vitamins and supplements. You may need to request a license to import food. Ask a local custom broker about it.

7. Can I actively build the business and gain Business Associates within my team even though I am not in the US?

Yes. There are 2 excellent ways of doing this besides having to talk to people about it on different forums, or sharing the concept with your family and friends (which I hate doing unless they raise the topic).

If they are not from North America, then they will need to follow Steps 2 & 3 above.

A. TriVita informs all customers of the opportunity of becoming Affiliate Members and if they join, they will become part of your team.

B. TriVita is developing a lead programme aimed at people who have registered an interest in developing a 'work from home' business.

8. Can I have my local phone number on my replicated websites?

No. TriVita does not recognize any Affiliate Member as being from outside of the USA or Canada. That is why you must be a "US Entity".

You must have a US phone number. TriVita's website software is only calibrated to accept US/Canadian phone numbers. (Different number of digits to overseas numbers.) PLUS all address details (billing & Mailing) must be US addresses.

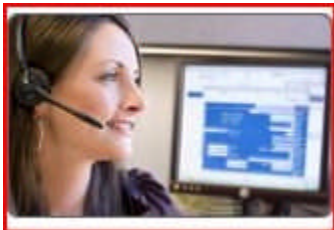

9. Where can I get a US phone number?

A couple of sites that can help with a US phone number are <http://www.kall8.com> and <http://www.jetnumbers.com>. They are very inexpensive.

Alternately, you might look at getting a US number through Skype <http://www.skype.com/intl/en> utilizing the Internet for your calls. A SkypeIn number is perfect if you have friends, family or business colleagues that don't use Skype. Anyone can dial your personal SkypeIn number from a phone or mobile and hey presto, your Skype rings and you pick up the call - wherever you are in the world - and the caller only pays standard local rates to call you and not international rates.

Using Skype will allow International Affiliate Members to talk inexpensively with their US/Canadian upline, or any of their team members from North America.

10. If I need help from the TriVita Affiliate Member Services, could I contact them, let them know that I am from overseas?

No. If you contact Affiliate Member Services, only give them your name and your TriVita 8 digit ID number (and your US street address, if needed). Talk to your upline Affiliate Member/ Director first before even thinking of talking to TriVita Affiliate Member Services. Not everyone in Affiliate Member Services knows about International sign-ups at this stage.

11. Can I contact people outside USA or Canada to build my business?

One of my upline Directors gave me this advice when I first joined the business in Jan '08.

"If you are going to advertise and promote TriVita in order to grow your business, please be very careful. You cannot advertise that it's available outside of the U.S. or Canada. I would recommend that you contact people that you know personally or have been involved in businesses in the past if they are outside of the U.S. and Canada. We just cannot promote that this is a worldwide opportunity per the companies' terms and conditions. You can of course contact people you know but when it comes to online forums and advertising online, this is where we must use a lot of caution."

Now, I let people from outside North America know that they can build a TriVita business from anywhere but their business is being built solely with USA/Canadian customers, and that TriVita does not ship outside North America. We can get our products as our order goes to our US mail forwarding address.

12. Can I apply in a Business Name...OR... do I have to be myself?

You can choose how you want to register. Either way you need a US Tax ID Number that matches the name you used and a US Street Address. If you decided to register as a Business Entity, you will need to send your Business registration papers in to TriVita's Affiliate Member Services along with your paper application form
